Single family homes, condos, apartments. Significant increase of un housed individuals

9.What issues matter to your community? Please describe how the issues before the City Council have an impact on your community.

Im 36 years I've seen a huge increase in crime, homes individuals and individuals who are using drugs or alcohol. It's terrible and definitely increased after we got Bart. We do not have activities for our youth or older adults as the rec center was destroyed years ago. Why did we spend tens of thousands of dollars to have the streets painted by papes??? Millbrae does not feel safe as it use to. I also think we need to make sure our schools have what they need

10.What else would you like to tell us about your community?

Do not build any more apartments. We need to focus on maintaining what we have snd our infrastructure . Traffic has gotten terrible. Also adding living planes was a mistake we need a store like kohl's, target, Kmart. More diversity in restaurants would also be nice. Water and trash bills are too high. We need you to advocate for us and not have the highest bills around!!!

1. What is the neighborhood where you reside:

Downtown Station Area

2. How do you describe your community?

- A transit commuter's dream location - Walkable: groceries, parks, and restaurants are all in walking distance. - Extremely diverse across race, age - A little dangerous because of all the car traffic that is fast or turns too aggressively - A little noisy because of El Camino, the airport, and the trains. Quiet west of Magnolia - Amenity-rich: Mills HS, Spring Valley Elementary School, and Spur trail are very close - Green: quite a few trees on residential streets west of Magnolia

3. Explain the geographical location of your community. What are the physical boundaries/features (streets, freeways, parks, etc.)?

Southern boundary: Murchison Drive Northern boundary: Meadow Glen Eastern boundary: El Camino Western boundary: Spur trail

4. Are there public services (bus lines, libraries, public schools, fire stations etc.) that help identify your community?

I consider several major public buildings (library & city hall, Mills HS, Taylor Middle School) to be within walking distance and so definitely part of the community.

5. Identify the major cultural/recreational/educational/religious institutions in your community:

Educational: Mills, Taylor, Spring Valley Recreational: Spur Trail, Central Park Religious: Millbrae Bible Church, New Vision United Methodist Church

6. What languages are spoken in your community? What are the major race/ethnic groups in your community?

Languages: English, Cantonese, Mandarin, Spanish Races and ethnic groups: White, East Asian, South Asian, Central Asian, Hispanic

7. Environment (coastal, inland, urban/suburban):

Urban

8. Types of homes (single family houses, apartments, condos, mobile homes, etc):

Multi-story apartments and condos, courtyard apartments, duplexes, fourplexes, single family detached homes.

9. What issues matter to your community? Please describe how the issues before the City Council have an impact on your community.

Some of the apartment buildings in the neighborhood look old and in need of repair and upkeep. El Camino is a real safety challenge and the sidewalks on the east side are far too narrow. It makes getting to the intermodal station more difficult than it should be. We would benefit the most from traffic calming and pedestrian improvements in the area. There's a lot of vacant and underused land on the west side of the station. Improving this area would make the neighborhood more attractive.

1. What is the neighborhood where you reside:

Highlands

2. How do you describe your community?

Mixed/we have a significant number of older/retired residents and a spattering of young families and empty nesters still in the workforce. We are also mixed racially

3. Explain the geographical location of your community. What are the physical boundaries/features (streets, freeways, parks, etc.)?

I live in the downtown area. Between Hillcrest and Taylor. Our area of the Highlands is greatly impacted by downtown events, traffic and parking issues. Millbrae may be small but it has very different needs for different neighborhoods.

4. Are there public services (bus lines, libraries, public schools, fire stations etc.) that help identify your community?

Magnolia Ave is a major thoroughfare for Millbrae and that our street. Lack of parking enforcement causes issues/lack of traffic law enforcement makes driving and waking unsafe. Fire/Police and post office are within blocks. We should have buses on Magnolia.

5. Identify the major cultural/recreational/educational/religious institutions in your community:

The Asian community is very well represented by cultural events. Events honoring other ethnic groups have disappeared from our community. We have the potential for great schools but turmoil in the district/leadership issues and low funding make it difficult to keep teaching staff and administrators

6. What languages are spoken in your community? What are the major race/ethnic groups in your community?

Many languages

7. Environment (coastal, inland, urban/suburban):

Suburban

8. Types of homes (single family houses, apartments, condos, mobile homes, etc):

Single family/apartments/condos and more and more multi use housing going in

9. What issues matter to your community? Please describe how the issues before the City Council have an impact on your community.

Division. City council don't seem to focus on the city. They seem more concerned about lining their pockets, making a name for themselves and fighting with each other. Our city has no leadership or direction. It's a shit show

10. What else would you like to tell us about your community?

We are a small city. Well positioned on the peninsula. We have the opportunity to be special but our city leaders are greedy. We are densely populated in our 3 miles and yet our city leaders keep approving large housing projects. Our infrastructure cannot accommodate the influx of residents unless significant changes are made. We already have a homeless problem. We have a crime problem and the downtown is gross. The lions club is an awesome community organization-they hold host to the best event

1. What is the neighborhood where you reside:

Green Hills

2. How do you describe your community?

My community is my neighborhood - the homes and residents that live in proximity to where I live and within an area recognized as a formal neighborhood.

3. Explain the geographical location of your community. What are the physical boundaries/features (streets, freeways, parks, etc.)?

My neighborhood is the area known as the Green Hills Subdivision, an area subdivided and built in the mid-1970's. The boundaries of my neighborhood are roughly the Green Hills Country Club, Ludeman Lane, Magnolia Avenue, and Helen Drive. For purposes of the districting process, I would envision my neighborhood being combined with other adjacent neighborhoods to form an election district.

4. Are there public services (bus lines, libraries, public schools, fire stations etc.) that help identify your community?

Green Hills Elementary School could be seen as an anchor landmark for the election district that I would like to a part of.

5. Identify the major cultural/recreational/educational/religious institutions in your community:

n/a

6. What languages are spoken in your community? What are the major race/ethnic groups in your community?

I see my community as being heterogeneous, with a varied mixture of ethnicities and languages.

7. Environment (coastal, inland, urban/suburban):

My community, as well as the entire community of Millbrae, is suburban.

8. Types of homes (single family houses, apartments, condos, mobile homes, etc):

My community is comprised primarily of single-family homes.

9. What issues matter to your community? Please describe how the issues before the City Council have an impact on your community.

n/a

10. What else would you like to tell us about your community?

I would like to see the election districts created by joining groups of adjacent recognized neighborhoods. Another methodology would be to use the elementary school attendance boundary map as a starting point for creating the election districts. One other community of interest that I can think of (even though I do not reside within it) is the large geographical area of apartments on Richmond Drive, Lincoln Circle, and a longitudinal strip along Magnolia Avenue, Broadway, and El Camino Real.
